HDMI Extender
appC14

The APPC14 is the device that allows us to transport the HDMI signal from one point to another over a network cable.
Through a CAT 5 or CAT 6 network cable it carries the HD signal from one point to another in the house. Ideal for large distances that do not exceed 30 meters. Supports resolutions up to 1080p, 3D and digital audio, including DTS Digital, DTS-HD Master Audio ™ and Dolby TrueHD ™.
Discover the new way to watch your favorite movies anywhere else in the house!

- Supports 3D
- By Cat-5e/6 Cable up to 30 Meters
